SOLID STAINLESS STEEL GLASS HINGES

Dobradiças em aço inoxidável maciças.
Um robusto eixo garante o perfeito funcionamento de portas até 60kg com altura até aos 2,5Mt.

O sistema de rolamentos poliméricos, garante um funcionamento suave e grande resistência à fadiga.

Estas dobradiças podem ter acabamentos pvd titanium nas cores: preto, dourado, cobre e chocolate além do standard satinado.

Solid stainless steel hinges.
A robust shaft ensures the perfect operation of doors up to 60kg with height up to 2,5Mt.

The polymer bearing system guarantees smooth operation and great resistance to fatigue.

These hinges can have pvd titanium finishes in the colors: black, gold, copper and chocolate in addition to the standard satin.

Bisagras de acero inoxidable macizo.
Un robusto eje garantiza el perfecto funcionamiento de puertas hasta 60kg con una altura de hasta 2,5Mt.

El sistema de rodamientos de polímero garantiza un funcionamiento suave y una gran resistencia a la fatiga.

Estas bisagras pueden tener acabados pvd de titanio en los colores: negro, dorado, cobre y chocolate además del estándar satinado.
